Closing date

08th December 2023

Job Purpose

We are looking to employ a dedicated and experienced site supervisor to oversee facilities maintenance and construction projects. He should be detail-oriented and knowledgeable of construction safety regulations with the ability to interpret building plans as well as demonstrate exceptional leadership, communication, and problem-solving skills.

Roles and responsibilities:

- Planning, executing and monitoring of projects.
- Prepare Risk Assessments and Job Safety Analysis for activities.
- Enforcing site safety rules to minimize work-related accidents and injuries.
- Analyzing blueprints to ensure that construction projects meet design, safety, and budget specifications.
- Inspect work performed by tradesmen to ensure that it meets specifications and established industry standards.
- Review work orders/task orders to ensure the tasks are completed on-time and inspect the projects to ensure all work is accomplished per the SOW.
- Manage orders and deliveries of construction materials on site.
- Maintaining an accurate record of employee attendance.
- Confer with staff to resolve performance and personnel problems.
- Conduct daily meetings with trades to discuss project work, client concerns, and trade shop workflow.
- Evaluate employee performance and recommend personnel actions.

Required Qualification and Experience:

- Diploma in Civil Engineering, or related field is preferred.
- Proven experience working as a site supervisor.
- Five (5) years' verifiable related work experience managing multiple trades in a large institutional setting or managing construction projects.
- Knowledge of CAD and Microsoft Office.
- Previous work experience in harsh environmental conditions.
