Position: Supply Chain Manager

Directly Reports to: Executive

Posted

03rd December 2023

Closing date

10th December 2023

Job Purpose

The Supply Chain Manager is based in Mogadishu, Somalia.

He/ She shall improve productivity and efficiency and reduce costs while securing high quality material for the company. They will collaborate with other departments, such as Operations and Finance, to ensure our supply chain and logistics operations function properly. They should have a deep understanding of the supply chain networks and requirements in the construction industry.

Roles and Responsibilities

- Oversee supply chain process for the inventory maintenance, material requisitions, purchase orders, shipment and delivery and returns for rejected products.
- Monitor, analyze and maintain supply chain inventory and records
- Lead the supply chain team in executing best practices and measuring performance through agreed upon Key Performance Indicators (KPIs).
- Build relationships within the company and with external parties, such as suppliers or distributors.
- Plan and oversee the implementation the overall supply chain strategy.
- Improve the overall supply chain performance and look for any possible innovations to the process
- Identify process bottleneck and implement solutions in a timely manner.
- Carry out evaluation, selection and re-evaluation of external providers and update their database
- Manage and motivate a team of supply chain staff

Relevant Qualifications and Experience

- Bachelor's Degree in Supply Chain Management, Procurement, or similar field
- Membership to a Professional Organization will be an added advantage.
- 5-10yrs work related experience in the construction industry
- Previous work experience in harsh environmental conditions.
